### ABOUT

Passionate and collaborative I have always had efficient and strong relationships with programmers, achieving great work groups, projects from start to finish.

With 10 years of remote work experience, I'm used to resolve problems and look for solutions.

I'm creative, metodic and very organized. I like to learn new things, study and take courses, I always been a good dedicated student; but I'm also a self-taught person. I have good capacity for redaction and orthography (in Spanish)
